Do I need to get inspected? By whom?

## FOOD SERVICE VENDORS

For those who prepare food & prepare samples at a Farmer's Market

Food Service Vendors must undergo inspection at the market. VDACS inspects vendors at government run markets & the local Virginia Department of Health (VDH) inspects vendors at privately sponsored markets.

Food Service Vendors must have an on-site utensil and equipment washing set up that includes three basins: one each for washing, rinsing, and sanitization (using the appropriate strength of chlorine or quaternary ammonium - confirmed with sanitizer test strips). Utensils should be cleaned when you are changing between raw and ready to eat foods, between raw fruits and vegetables and TCS foods\*, or if they have been contaminated.

Practice general good hygiene. Hands must be washed frequently at an on-site hand washing station. Avoid bare-hand contact with ready to eat foods by using gloves, tongs, deli paper, etc.

Food Protection: Overhead protection for vendor is required (tent, canopy, awning, table umbrella, permanent structure, etc.) Preparation must occur on smooth cleanable surfaces such as tables. Slicing must be done on cutting boards. Use wrapping or other effective barriers to protect from customer handling. Stored food should be in a clean, dry location, at least 6 inches off the ground.

For TCS foods \*: Hot Holding is 135°F or higher and Cold Holding is 41°F or lower. Use a calibrated metal stem thermometer to ensure you are meeting the required temperatures. Ice should be drained frequently at an approved dump site.

\*Time and Temperature Controlled for Safety (TCS) Foods: Please see important note in bottom right corner of previous page.
